

Social Carbon Offsets Programme

GOODPLANET
FOUNDATION

SOCIAL CARBON OFFSETS PROGRAMME

OUR MISSION

To develop and support projects, in France and abroad, for:

- fighting against climate change (mitigation or adaptation)
- the benefit of underprivileged populations

5 AREAS OF ACTIVITY

Agroforestry

Energy access

Bioclimatic schools

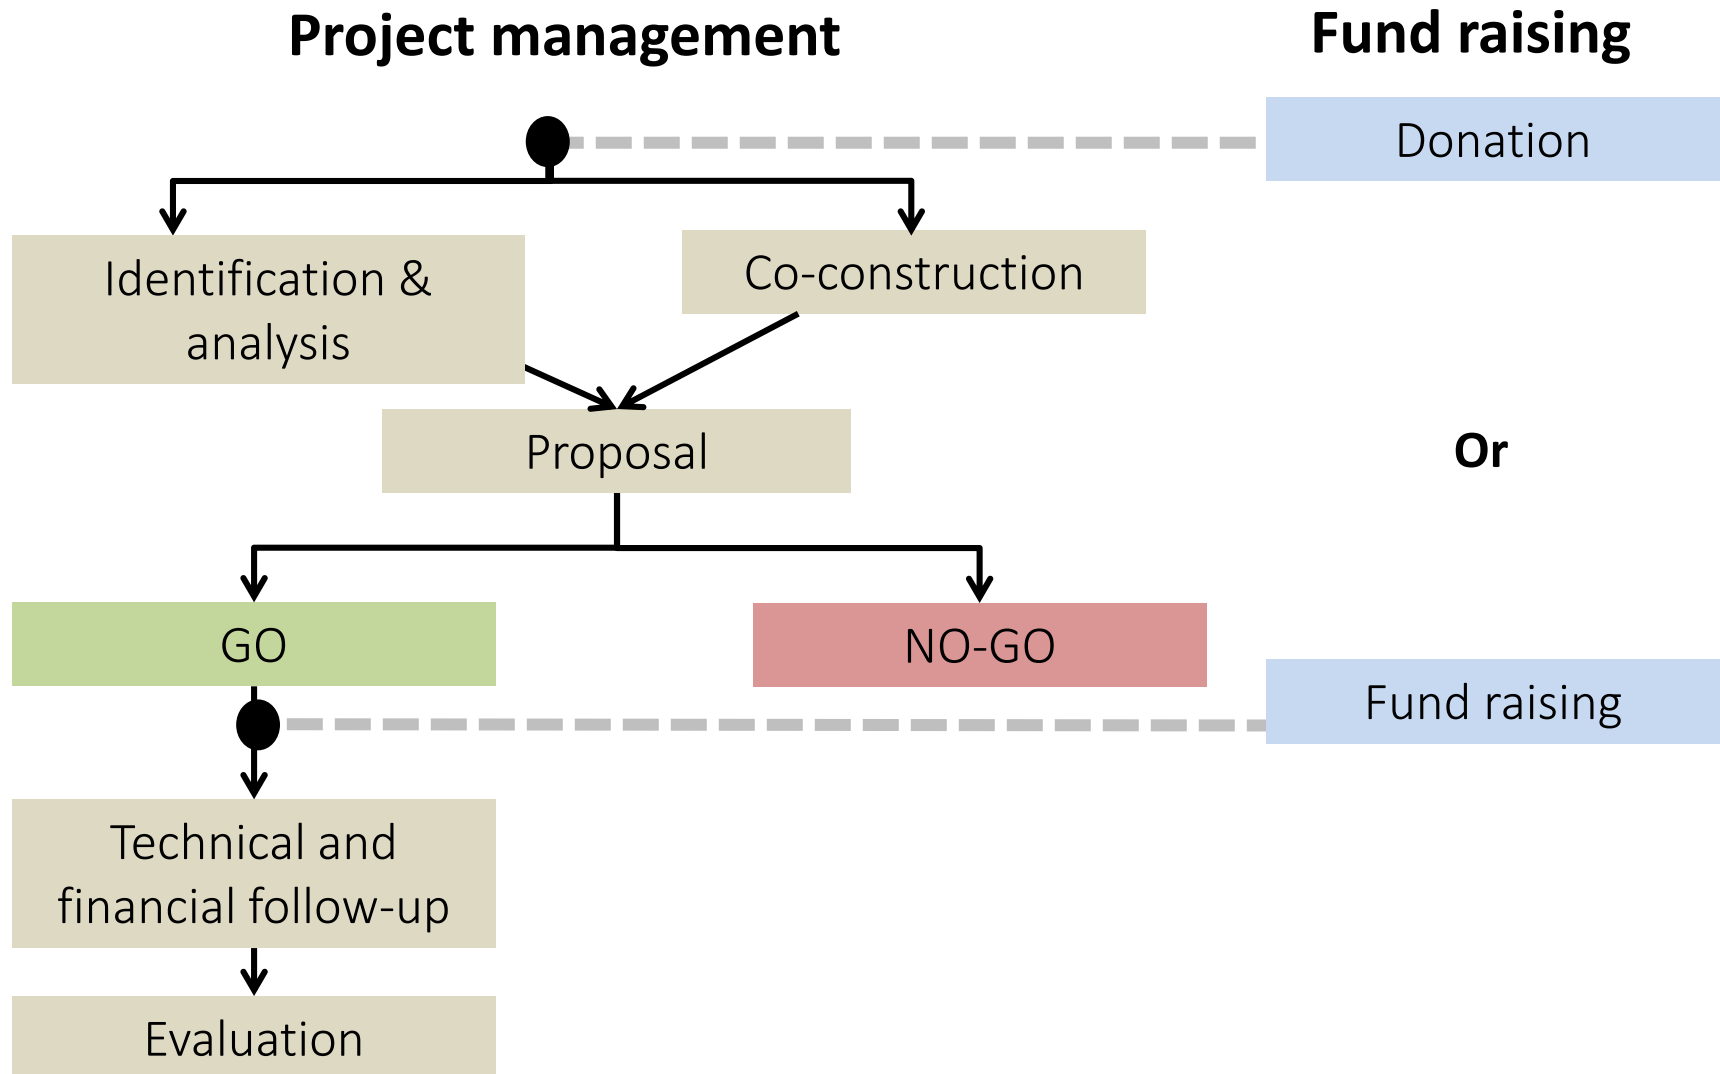

Biodiversity protection

Waste management and conversion

SOCIAL CARBON OFFSETS PROGRAMME

SOCIAL CARBON OFFSETS PROGRAMME

2 financing modes

Patronage

Donation, from a company or an individual, to an activity of **general interest**. This gives rise to a tax exemption.

To support projects in:

Bioclimatic schools

Agroforestry

Biodiversity protection

Voluntary carbon offsetting

An amount of greenhouse gases (GHGs) emitted in a country can be "**offset**" by an action that avoids the emission of an amount of GHG elsewhere, as part of a project.

To support projects in:

Energy access

Waste management and conversion

SOCIAL CARBON OFFSETS PROGRAMME

8 bioclimatic schools

+ 1 000 000 trees
planted

41 PROJECTS in
21 COUNTRIES

+ 120 000
BENEFICIARIES

+ 10 000 solar
cookstoves
+ 4 000 improved
cookstoves
+ 6 000
biodigesteurs

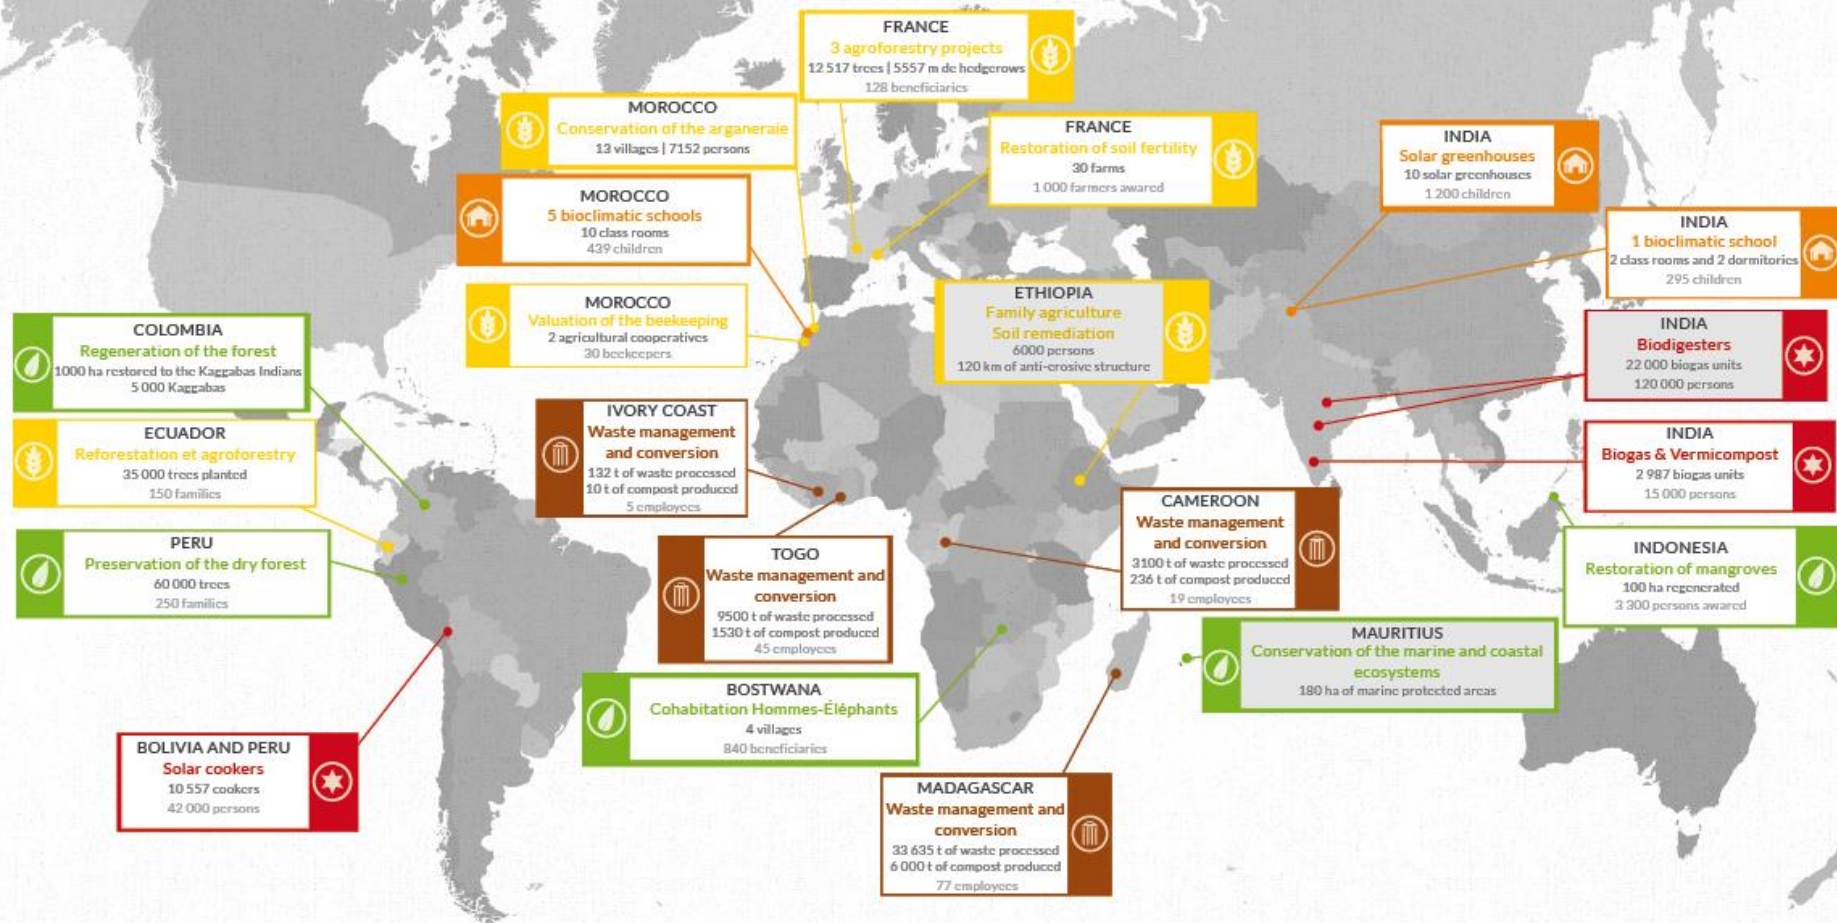

+ 200 ha gave
back to
communities

+ 40 000 t of
managed waste
+ 5 000 t of
compost produced

SOCIAL CARBON OFFSETS PROGRAMME

AFRICOMPOST PROGRAM

Reduce GHGs emissions
Provide a natural fertilizer to local agriculture

Togo, Côte d'Ivoire, Cameroun, Madagascar

Development of **compost units for organic waste**

5 major African cities: Lomé, Bouaké, Dschang, Mahajanga & Antananarivo

→ Fund raising (**Voluntary carbon offset**) for 2018

- 42,000 t of waste managed and 5 000 t of compost produced
- 30,000 t CO₂ equivalent avoided
- 175 jobs created

On going

SOLAR COOKSTOVES

Improve living conditions of rural populations
Reduce deforestation and use of fossil energies

Peru & Bolivia

Between 2007 and 2016 :

More than **10,000 solar cookstoves** distributed in Peru & Bolivia

More than **42,000 beneficiaries**

More than **40,000 tCO_{2eq}** avoided

On going

BIOGAS PROJECTS

Improve living conditions of rural populations
Reduce deforestation and use of fossil energies

India

Since 2008 :

2987 biodigesters have been constructed

Almost **15,000 beneficiaries**

Reduction of more than **100,000 t CO₂e**

On going

PRESERVATION OF COASTAL AND MARINE ECOSYSTEMS

Preserve environment to improve community living conditions
Maintain natural heritage and promote economic activities

Indonesia

2 projects of coastal regeneration and preservation

Mangrove regeneration – 100 ha

Seagrass and coral protection – 3 Marine Protected Areas

Collaboration with local communities- 3,300 persons

On going

Mauritius

Coming

Conservation of marine ecosystems in 2 lagoons

Protection of coastal ecosystems – 100 ha, 2 Voluntary Conservation Areas

Seagrass and coral protection– 110 ha, 2 Voluntary Marine Conservation Areas

Promote ecotourism – 1 label

Raise awareness in communities – 300 persons

HUMAN-ELEPHANT COEXISTENCE

Create an interest to live close to elephants and to protect them
Reduce community vulnerability
Generate new incomes

Bostwana

Elephants for Africa

On going

Improve **conservation knowledge** within the community of Khumaga

Improve the uptake of human-elephant **conflict mitigation measures**

Increase the **economic viability** of rural subsistence farmers' fields

EcoExist

On going

Develop opportunities for communities to gain **economic benefit from living close to elephants**

Improve **short-term strategies** for Human-Elephant Coexistence management

Gain a better **social and ecological understanding** of management options through research

BIOCLIMATIC SCHOOLS

Improve the thermal and acoustic performance of school buildings
Raise youths' awareness on environment importance and preservation

India

2 schools
325 pupils & 2 teachers

Coming (2018-2019):

Schoolboard for 80 children –Zanskar region
→ Fund raising

Marocco

5 schools
402 children & 14 teachers
3 scholar & educational gardens

Coming (2018-2020):

100 schools to be built
→ Fund raising to FFEM

2 scholar and educational gardens

SOLAR GREENHOUSES

Improve quantity, quality and diversity of food in an autonomous way
Raise awareness on importance of balanced diet

India

7 improved greenhouses in 4 boardschools

983 children and **45 staff** beneficiaries

Training of **30 staff** in the greenhouse business plan, food storage management, balanced diet establishment

Coming (2018-2020):

3 new improved greenhouses in 3 isolated boardschools

254 children beneficiaries

Training of **10 canteen staff**

AGROFORESTRY PROJECTS

Reforest degraded lands and improve soil quality and fertility
Improve living conditions and food security of local populations

Ecuador

Sustainable forestry

43,000 trees planted
150 families
4 farm cooperatives
Cooperative sales revenue:
18,400 €

On going

Ethiopia

Family farming

6,000 direct beneficiaries
120 km of anti-erosion structures
3 communal lands restaured
600 very poor persons improve their
food security

Coming

Peru

Dry forest preservation

+ 60,000 trees protected
1,300 direct beneficiaries
7 community-based projects,
generating new incomes

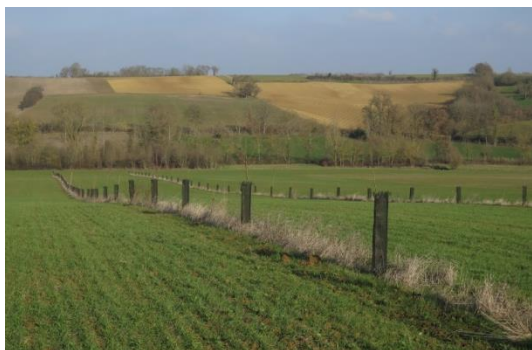

On going

AGROFORESTRY PROJECTS

Preserve water and natural resources
Mobilise societal actors in a communal development
Improve soil quality and fertility

France

Agroforestry in the Agr'eau Program – Bassin Adour- Garonne

8,350 trees on 111 ha

On going

Agroforestry program in Languedoc-Roussillon

2,300 trees on 46 ha

On going

Sustainable agricultures in Méditerranée

30 farms supported
1,000 farmers sensitized

On going

BEEKEEPING VALORIZATION

Promote and develop a sustainable beekeeping sector
Help beekeepers organize themselves into cooperatives
Improve beekeepers' income

Maroc

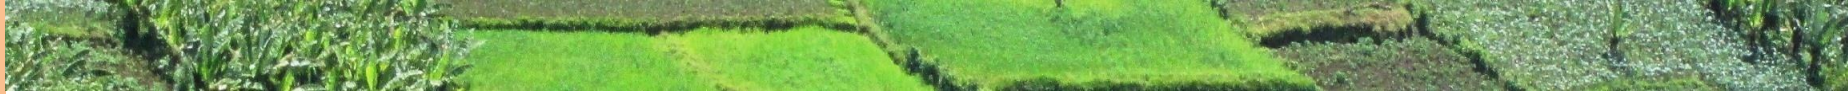

- 2 cooperatives created
- 30 subscribed beekeepers
- x3 number of moveable-frame hives
- 31k€ of individual and collective material
- Christmas fund raising campaign on Commeon to increase amount of material

Coming (2018):

- Project of cooperatives' union
- Building a sanitary standard building to expand marketing opportunities
- Fund raising

RESULTS 2017

- 29 projects on going with:
 - 6 new projects:
 - ❖ 2 biogas projects in India (Adilabad & Jabalpur)
 - ❖ 1 project of voluntary marine conservation in Mauritius
 - ❖ Agroforestry project in Peru
 - ❖ Greenhouses in Ladakh, India
 - ❖ Soil fertility project in France
 - 23 project followed-up
 - 2 completed projects (Family biogas in Mali & Mahavotra in Madagascar)
